Glossary

Growth Indicator

A category that describes the certainty that a group of students met, exceeded, or fell short of expected growth.

Growth Index

A measurement of the certainty that the group of students met, exceeded, or fell short of expected growth.

Growth Measure

A conservative estimate of the growth that students made, on average, in a grade and subject or course.

Standard Error

A measurement that establishes a confidence band around the VVAAS growth measure and describes the certainty that the group of students met, exceeded, or fell short of expected growth based on VVAAS calculations.

Growth Measure Percentile

A value that represents where the growth measure for the group of students falls in the distribution for this assessment.

Achievement

Achievement is reported in scale scores.

- Expected achievement is the average of the students' expected scale scores.
- Actual achievement is the average of the students' actual scale scores.

Expected Achievement Percentile

The expected achievement for the group of students relative to the overall distribution for this assessment.

Student Count

The number of students included in the analysis. The student count is included in the standard error calculations.
